ALEX CHEN

San Francisco, CA | alex.chen@example.com | (415) 555-0199 | linkedin.com/in/alexchen-dev | github.com/alexchen-cloud

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 6+ years of experience designing and scaling distributed web applications and cloud microservices. Proven expertise in Python, React, TypeScript, PostgreSQL, and AWS. Track record of reducing latency by 40% and increasing platform reliability for high-traffic SaaS systems.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Go, SQL, HTML5/CSS3
Frameworks: FastAPI, React, Node.js, Next.js, Express, Tailwind CSS
Databases & Caching: PostgreSQL, Redis, MongoDB, Elasticsearch
Cloud & DevOps: AWS (ECS, Lambda, S3), Docker, Kubernetes, CI/CD (GitHub Actions), Terraform

PROFESSIONAL EXPERIENCE

Senior Full-Stack Engineer | Nexus Cloud Systems (2022 - Present)
- Architected and deployed microservices backend using FastAPI and PostgreSQL, supporting 500,000+ monthly active users with 99
- Engineered dynamic analytics dashboard in React and Tailwind CSS, reducing client render times by 35% across 20+ enterprise clie
- Implemented distributed Redis caching layer, dropping database query load by 48% during peak transaction periods.
- Mentored 4 junior engineers on code quality, testing best practices, and automated CI/CD pipeline deployments.

Software Engineer | Horizon Tech Labs (2019 - 2022)
- Developed RESTful APIs in Python and Node.js for automated customer billing and invoice processing.
- Migrated legacy monolithic services to containerized Docker environments running on AWS ECS.
- Built end-to-end automated test suites with PyTest and Jest, elevating code coverage from 62% to 89%.
- Collaborated with product and design teams in an agile 2-week sprint cycle to deliver 15+ major features.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science | University of California, Berkeley (2015 - 2019)
AWS Certified Solutions Architect · Associate (2023)
